UKS2	Seasonal Change Working scientifically skills Y5&6	Living things and their habitats – year 5	Living things and their habitats – year 6	Forces – year 5	Earth & Space – year 5	Properties of materials – year 5	

- *We use the ASE Knowledge Matrices and Working Scientifically Skills document for planning and assessment in science.*
- *Make sure that you read the previous and following year's learning objectives alongside your own so that you know what progression is planned in each topic.*
- *Opportunities for cross-curricular links should be maximised to support immersion and mastery and develop concepts in different contexts.*
