★ **Number Bond and Multiplication Challenge** ★

★ **Be in it to win it!** ★
★

★ **Calling all parents, guardians and children!** ★

We are striving to strengthen children's basic skills in arithmetic. It is essential that children know their number bonds and multiplication tables as this helps them to be able to use and apply mathematics and solve reasoning problems.

We are working very hard in school to strengthen these basic skills, but we could do with a little bit of support from home too. We have created a number bond and multiplication challenge to make this fun and engaging and we are offering a whole host of rewards to motivate and encourage the children to get on board.

All that we ask is that you help your children learn their number bonds/ multiplication tables on their challenge card. Every time they have secured a phase, remove the corresponding slip from the bottom of the sheet and give it to your child to bring to school. The staff will check that they have indeed secured star 1, star 2 and star 3 and the children will receive a certificate and will be given 3 raffle tickets for our termly raffle.

The winner of the raffle will receive £20!

Thank you for your continued support,

Mrs Heap
