ONLINE SAFETY

Games Consoles for Children

With Christmas approaching, this is a time where many parents/carers and families buy devices for children.

When choosing the best games consoles to purchase, it is important to think about who in the family will be using it, where it will be used and what it offers over existing technology you may already have and the type of content you're happy for your child to access.

Internet matters have produced a fantastic page full of information about many consoles and devices, the games they can play and how to set these up safely for children.

The link to this is:

You can search the internet for 'Internet Matters, Games consoles for your child: what you need to know.'

Thank you 😊
